

I strongly support this petition for the reasons stated in the petition and a repetition or paraphrase of them here seems not usefull, except, as I do, by reference.

This petition does NOT seek to eliminate Morse Code, but just to add a large number of operators who are now absent from the HF bands due to the code REQUIREMENT.

It seems consistent with The FCC's holdings that times have changed and previous restrictions no longer serve a usefull purpose and should be eliminated.

I have been licensed as KD6PHB since '92, when I became aware that a no-code existed, (since '91, I believe). At least 40 years have been denied me of access. Please do not delay your approval; I'm not able to wait another 40 years to use HF and many more youthful than I are put off by being forced to participate in an anachronism.

Thank you.
